### **Stroll 97 Report.**

Predicted showers were delayed and many autumn leaves still clung beautifully to their trees while the fallen ones enabled 12 Swappers to crunch their way through them, possibly recalling childish delights. While not diverging from the main road, there was much to view and to think about, including past and present uses of many buildings and some open spaces. An unexpected bonus was seeing a new work sculpted this year during the Second Sculpture Symposium at "The Cedars".

### **Stroll 98 Dry Creek with Yatala Views**

**Monday 15th June, 2015 at 10.00am.**

**Park and meet:** Public car-park west side of Walkleys Road, between Grand Junction Road and Wright Road, Walkley Heights. (UBD 95 G5).

**Terrain:** Mostly flat but roughish in spots - some testing and interesting short diversions for those needing a challenge without interfering with others.

**Footwear:** Sensible walking shoes/boots. **Time:** 1.5-2.00hrs.
