PRESIDENTS REPORT
JULY 2026
Endeavour Hills Probus Club

Firstly a big congratulations to John Grennan. At the June meeting John volunteered to set up a What's App group for our club. At the time of writing 21 people have signed up. This is over half the membership. While the quality of the comments is probably not going to win any prizes, it is lovely to see people staying in touch and also supporting each other.

Congratulations to Paul, Christine and Ros Robinson who had/have birthdays in the month of July.

I would like to welcome Kay Davies to the Endeavour Hills Probus Club. We now have 41 paid up members. Speaking of membership, I had a thought provoking conversation with Phylis during our trip to the non existent snow. She thought the club was already big enough and we should stop taking new members.
According to our articles of association we have a limit of 60 members after which time we would start a waiting list. We can change this cap at any time by a vote at one of our meetings.I am coming around to the view that perhaps our limit should be 50 members. I would like to have a discussion about this in the September meeting. (Cheree, can you please put this on the agenda).

Some personal comments:

I love Melbourne but not in Winter. We were pleased to get away on July 1st in the caravan. As I am writing this the temperature in Townsville is 26°C with mainly blue sky. We stopped in Yeppoon (near Rockhampton) for my 73rd birthday. I have already posted this photo on our What's App group.

We are spending 10 days in Townsville. We were invited to my friends 70th birthday party on Magnetic island. Kerry and I taught together in Brunswick in 1978. After the party we went onto her yacht for a few drinks. This is us leaving to get back to shore.

Cheers
David
